Addo Sign

At Addo Sign, we aim to be completely transparent about our prices and services so that our customers can clearly see the cost of our offerings. Not all solutions on the market provide the same transparency. As a result, price comparisons based on what others list on their websites can often be misleading and may give the impression that we are expensive, which is not the case. We are attractive and at the same time competitive in terms of price, quality, and service. So feel free to contact if you want to hear more before making your decision.

Subscription and service prices

Introduction

When you use Addo Sign, services are paid through a credit system. A subscription includes a number of credits that can be used for, for example, selecting our various signing standards and services. We thus offer all of our functionality, but you only pay for what is used. This gives our customers full flexibility to tailor their signing flows as needed.
